

I. EXECUTIVE SUMMARY

Please provide a one-page summary of the proposal, including key information such as:

Project Objectives

a. Project name	
b. Project partners	
c. Total project cost	
d. Country location(s) of the project	
e. Brief description of the project	
f. Amount and nature of SE's contribution	
g. Projected date for a decision on the project by SE's Board of Directors (or other relevant internal authority) - No later than 06/30/2026	
h. Expected results of the project	
i. SE's expected role	

j. SE's categorization of the project for environmental and social safeguards purposes

[PROJECT NAME]

Outcome pillars	GAFSP Tier 2.1 outcome indicators (to be customized by each project)	GAFSP Tier 2.2 output indicators (to be used verbatim by project)
Across all five pillars	N/A	1. Number of people receiving direct benefits (person)
Increased agricultural productivity	Agricultural productivity, calculated as a measure of crop production weight (in kg or tons) per area of land under cultivation (in hectares).	2. Land area receiving improved production support (hectare)

Table 2 lists Tier 2.2 output indicators that will be measured at project level consistently, which provides aggregable data to measure the whole program's efforts and how GAFSP contributes to achieving higher level impacts. Progress reporting will take place on a bi-annual basis

Table 2: Tier 2.2 Output Indicators for GAFSP Projects

	Tier 2.2 output indicator, <i>mandatory breakdowns</i> (unit)	Type of fund	
		BIFT	PrSW
1	Number of people receiving direct benefits (person) Disaggregation: Of which, number of females		
2	Land area receiving improved production support (hectare) Disaggregation: Area provided with new/improved irrigation		

Include a detailed budget with budget notes, and the total amount of SE fees. Where possible, the budget should be linked to individual activities and expected results. Provide specific budget information for each country or

on a threshold number of conflict-related deaths relative to the population. As published annually by the World Bank Group.

- In alignment with the definition of the United Nations Food and Agriculture Organization (FAO) and with the Committee on World Food Security Voluntary Guidelines, the Global Alliance for Improved Nutrition (GAIN) defines a “nutritious” food as a food that, in the context where it is consumed and for the individual who consumes it, provides beneficial nutrients (e.g., vitamins, major and trace minerals, unrefined complex carbohydrates, protein, unsaturated fats, essential amino acids, essential fatty acids, and dietary fibre) and minimises potentially harmful elements. GAIN groups “nutritious foods” into the following four broad types:

Description	Examples of food groups	Type
<p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p> <p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p>	<p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p>	<p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p>
<p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p> <p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p>	<p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p>	<p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p>
<p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p> <p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p>	<p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p>	<p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p>
<p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p> <p>Highly nutritious, low-sugar, low-fat, low-salt, and low-potentially harmful elements when consumed in recommended quantities over time.</p> <p>Not major potentially harmful elements when consumed in recommended quantities over time.</p>	<p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p> <p>Whole grains, fruits, vegetables, nuts, seeds, fish, and legumes.</p>	<p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p> <p>Plant-based staples</p>

- A private sector entity that acts as the intermediary between parties in a financial transaction, such as a bank, credit union, investment fund, a village savings and loan group, or other institutions that provides financial services to private investors, agri-food producers, producer organizations, micro, small, or medium-sized enterprises, or agribusiness start-ups.
- A legal entity that is (i) carrying out (or established for) business purposes and (ii) financially and managerially autonomous from national or local governments.

(SEE SEPARATE DOCUMENT)

List the names, titles, organizations, and emails of the core members of the Proposal preparation team (including private consultants and Supervising Entity staff, if any, who directly contributed to completing the Proposal Template). Do not include individuals who participated in wider consultation meetings or workshops held as part of the preparation of the Proposal.
